10 September 1957

SUBJECT: Contract SP-1914, Procurement Release of Article #30
 TO: Contracting Officer

In accordance with telephone coordination and guidance with the Contracting Officer and Col. G. F. Keeling, Hq USAF, it is requested that the contractor be directed to deliver an article #30 to Contract SP-1914. This article will be produced by using spare assemblies and sub-assemblies, components and spares as available from and considered surplus to Contract SP-1913. Estimated cost of fabrication of parts not available from SP-1913 and the assembly and flight test of the additional article is [redacted] and should be charged against SP-1914.

Tentative agreement between the WSPO and the contractor established the article #30 as a "C" camera article with probable delivery in mid December.
